

January 23, 2021 *Shinja Kokoro no Moto Benkyōkai about the Family*

*Shinji*

*Why is a person (human beings) born into a family and deepens ties to others as their life ends?*

*This is the natural condition of a person (human beings) who is guided and protected by their unmei in Kami's hands.*

*However, there are many (human beings) who suffer, unable to have the right relationships and to protect their family.*

*To the Shinja*

*Do not seek to attain what is natural from knowledge found in society.*

*Learn the teachings and gain the awareness to look once again at the state of society.*

*The more a person (human beings) deepens their learning of the teachings, their awareness grows and they are able to have the right involvement with others.*

*The home is a needed environment to hone and elevate a person's (human beings) kokoro(unmei-jittai) and to live out a life of no regrets.*

*When the teachings are learned together with family members, the kokoro of a person (human beings) is fostered in a home where the principles exist.*

*When each family member understands their place and position in the relationship to one another, a person (human beings) lives a life that is one with their unmei.*

*Be the person (family) who lives by the teachings and knows the worth of a home.*
