

April 23, 2021 *Shinja Kokoro no Moto Benkyōkai* about the Family

*Shinji*

*People (human beings) who live each day with hope and have dreams in their life, know what is a family that lives in harmony.*

*To the Shinja*

*Politics and economics do not have the power to protect life. They simply create the structure of a country, produce goods, and generate capital.*

*They do not have the power (vitality) to make life abundant and fulfilling.*

*The person (people) who learns the principles of life from the teachings and realize what true abundance is, will always protect the family.*

*The kokoro (soul) of the human being anchors in a family that is one with the principles and is guided to a life that is one with their unmei.*

*The dreams in life become the strength to walk the correct path the more the belief to protect family members grows.*

*The hopes in life bring out the kokoro to live and give back the more encounters with people deepen.*

*All human beings will live out a life of happiness and prosperity by manifesting Kibō no Michi when they gain awareness from the teachings and their understanding deepens.*

*Know that the environment that fosters a life of abundance is the family.*
