

*Shinji*

*There is one thing that you must do now (today) knowing (the truth) about life that is lived with your kokoro (unmei-jittai).*

*It is to learn the teachings with your family members and strive to build a family where the kokoro comes together through the principles.*

*This belief (effort) draws out the strengths of your unmei and corrects and elevates your jittai.*

*People who live today (in these times) rely on knowledge without principles believing it to be absolute, thus their endeavors do not bear fruit and they live a life that goes against the path.*

*To the Shinja*

*Gain awareness from the teachings and strive to be the human being who walks the correct path.*

*The more understanding is gained and deepens, human beings do not have doubts.*

*Know what is your responsibility and place and become the human being who abides by the path.*

*As Kami sees it, shinja has gained awareness from the teachings, but their kokoro has yet to achieve understanding.*

*This is the reason why the kokoro is beset by doubts, and suffering deepens.*

*The teachings give the kokoro (life) of the shinja deep understanding, thus they should seek out the principles and learn.*
