

July 23, 2021 *Shinja Kokoro no Moto Benkyōkai* about the Family

*Shinji*

*All people (human beings) inherit the Kokoro no Michi of their family and live for a finite period of time (era) in the hands of Kami.*

*However, there are many people (human beings) who live out their time (era) without knowing or realizing the worth of the family.*

*This is why they have no hopes and dreams in life; and doubts, troubles, and suffering are created in their life.*

*To the Shinja*

*Learn the conditions (principles) through the teachings about what is a family in harmony.*

*Your relationship with family members will gradually deepen and harmony is created.*

*The power (environment) that harmony creates is great.*

*Human beings elevate their jittai and go on to live a life that is one with their unmei based on harmony.*

*Do you know why in this world (society) today there are no hopes and dreams in life and harmony cannot be maintained?*

*The cause does not lie in the state of politics and economics.*

*It is because family members do not know how to connect with one another and their mistakes deepen, thus their kokoro does not come together.*

*A family in harmony is created when family members learn the teachings together and their kokoro coalesces in an environment based on the principles.*

*Realize that the underpinning of an upbringing where human beings are fostered correctly lies in the condition of the family.*
