

*Shinji*

*Live with the teachings as your support in order to live a life that is one with your unmei.*

*This is the condition (kokoro) of a person (human beings) who has attained a life overflowing with meaning and purpose and many joys.*

*To the Shinja*

*Strive to be the person (shinja) who learns the teachings and becomes aware of the principles.*

*The teachings protect and guide the kokoro of the shinja to the correct path.*

*Be aware that the kokoro to go against the path of Kami, Hotoke, Hito no Michi will lead your life astray and bring about suffering.*

*The information and knowledge that flood society do not have the power to guide and protect your life.*

*When you gain understanding from the teachings, you will perceive situations correctly and walk your path.*

*Kami sees that the will (conviction) of all (shinja) to perceive their jittai and to live by the principles is weak.*

*Thus awareness and understanding do not blossom in the kokoro.*

*All strive to attain their present self-interests without elevating their jittai.*

*Thus anxiety grows ever stronger.*

*When awareness is gained from the teachings, the jittai is seen correctly, and the conviction to live by the principles of Kami, Hotoke, Hito no Michi arises.*

*Your effort bears fruit and desires that spring from your unmei are also fulfilled.*

*Understand that a life that is one with its unmei guides and protects the kokoro.*
