

January 29, 2023 *Kibō no Michi Benkyōkai*

*Shinji*

*Do you know why there are many people who are troubled, suffer and are lost in life?*

*They are captive to their greed, lower their jittai of their own accord, and their unmei withers away because they do not know the truths about life.*

*Shinja must learn the teachings and make the effort to become aware of the principles.*

*When awareness becomes understanding through kigan, human beings are freed of their greed.*

*And their life begins to move guided by their unmei.*

*Be aware that the cause of your troubles lies in the lowness of your jittai; and the effort to live by the principles is desired.*

*Your emotions will gradually anchor and thoughts that go beyond your place and who you are will not occur.*

*This is when the best is made of your endeavors.*

*The world of nature moves seeking harmony and balance—this is the will of Kami.*

*The same is true for human beings—realize that the kokoro finds peace when the unmei (place) of each person comes together, is enhanced and supported.*

*When you become aware and begin to gain understanding through your kigan, the unmei (the kokoro) of each human being becomes one with Shinkon (Kami) and harmonizes with all in this world.*

*And the worries and troubles of the kokoro will disappear at this time.*
