

*Shinji*

*Kami reveals the principles to the world through Shisha.*

*What is desired of the shinja is the effort to learn the principles and to deepen your understanding.*

*Human beings can achieve a life of kaiun when they live their life sustained by the principles.*

*Because they do not know the principles as they live their life, human beings lower their jittai by choice, then worry and suffer.*

*This world is in the hands of Kami and revolves around the unmei-jittai.*

*The human being who knows this truth, this principle, will always look to the principles.*

*The more you live by the teachings, the jittai is elevated and a life that is one with your unmei can be lived.*

*To the Shinja*

*Human beings are born into this world to guide society on the correct path in the hands of Kami.*

*But there are many human beings who do not know how to live by the principles, hence Kibō no Michi (the path) does not manifest.*

*Be aware that the light (the path) manifests when the teachings are learned with family members and a family that abides by the principles is created.*

*The principles correct the jittai of the shinja and show the way to a life that is one with your unmei.*

*When you live by the teachings, the best is made of the knowledge and endeavor of all human beings (people) and a life without regrets will be lived.*
