

April 29, 2023 *Kibō no Michi Benkyōkai*

*Shinji*

*Learn the teachings with your family members; create a family that abides by the principles.*

*The strengths of your unmei are drawn out and the foundation of a family that does not experience illnesses, accidents, and disasters is created.*

*To the Shinja*

*What is the conviction (the thoughts) that guides and sustains life?*

*You cannot protect your life in its entirety through knowledge, effort, and experience.*

*Learn the principles through the teachings; the more they sustain your life, your kokoro anchors and all doubts disappear.*

*However, because there are too few principles that sustain life, people are consumed by the changes of an era and suffer.*

*Read repeatedly the teachings Kami has given to society (the world) through Shisha.*

*Your obsession with events and things will disappear, and you will gain the confidence to live your life.*

*The strengths of your unmei will surface and become your support in life.*

*Shinja must strive to live by the teachings.*

*When you strive, the unmei is honed and manifests.*

*When the kokoro that manifests Kibō no Michi is experienced, all human beings (people) gain the confidence to live.*

*The kokoro to give back elevates your jittai, and you will increasingly become the human being (the person) who lives by the principles of the path.*
