*Shinji*

*Human beings are born and given an unmei (strengths) to give back to society in the hands of Kami.*

*Human beings elevate their jittai and live a life that is one with their unmei when they are in a family that lives by the teachings.*

*Knowing the truth—the principle—about life, strive to be the shinja who lives by the teachings.*

*The teachings draw out gratitude (the emotion) to make the best of encounters with all people and living creatures, and you increasingly become a human being who lives with compassion and words of truth.*

*This is the human being (the person) whose awareness and understanding deepen from the principles of the path.*

*To the Shinja*

*Learn the teachings with family members and have the strong conviction to interact with them based on the principles.*

*This conviction draws out the kokoro to give back that which is rooted in love that is the truth, and the kokoro of family members come together as one.*

*The more human beings live by the principles of the path, their kokoro of gratitude, the kokoro to give back, and the kokoro of truth and compassion elevates their jittai and they manifest Kibō no Michi.*

*Your life (your kokoro) is saved and protected by Kibō no Michi and your life is guided to attain Shinjitsu no Michi.*

*This is the era (the time) to perceive the life that attains kaiun.*
