Shinkon (Kami) Reveals the Principles Through Shisha

Shinji

Kami has given a soul to all human beings and living creatures; and through their unmei, guides them on the correct path in this world.

People, who gain awareness from the Shinji—the principles, will harmonize society and demonstrate the correct path.

Kami opened up this church environment to society (the world) so that it will not lose sight of the kokoro to harmonize.

An era (time) has passed since the descent of Shinkon (Kami) seventy-six years ago—and during this time, Kami has designated the Shisha in sync with the times and protects this environment.

In the face of an era's unmei (power), the world today is undergoing a great change.

The age of Shinkon is when today's society lives through the era correctly.

Kami reveals the principles of life to society through Shisha Tomomarukō to foster human beings who will achieve love that is the truth as they interact correctly with the era.

Shinja should learn the teachings with their family members and create a family that interacts based on the principles.

The strength of this conviction (this determination) will connect you strongly and deeply to the Kokoro no Michi of your family; and a life (the kokoro) is fostered where illnesses, accidents and disasters are avoided.

Receive the unmei (the power) of Shinkikonshō and allow the unmei (the kokoro) of the true shinja to guide the world to harmony.

Summary of the Shinji

Kami protects us having given all people and living creatures a soul and an *unmei* that contributes to society. People, who are able to manifest their *unmei*'s strengths and live out their lives as an example to others, are *shinja* who have gained awareness from the *Shinji*. They have the ability to harmonize the surrounding social environment and live a way of life based on the correct path.

To achieve world harmony, *Kami* descended together with the designated *Shisha* to create an environment of salvation in this world known as *Shinji Kyōkai*. During this long period of time, a *Shisha* was designated in sync with the era; and the *Shinji* continue to be revealed to the world. Following the period of *Daishin* when the existence of *Kami* was first revealed and the period of *Chokushi* when *Kibō no Michi* was first manifested, we are now in the age of *Shinkon* where *Kibō no Michi* is accessible to all *shinja*.

Presently, the world is undergoing great changes moved by the power of an era's *unmei*. These changes are not created by politics, the economy and other forms of human power. The world's flow is greatly changing because we have entered the age of *Shinkon* where salvation can be truly achieved.

What is needed to manifest *Kibō no Michi* is love that is the truth. *Kami* has continued to steadily reveal the *Shinji* to us through *Shisha* so that this *kokoro* may become a part of us and allow us to live in harmony with those around us. This *Shisha* is *Tomomarukō Sensei*. "Tomomarukō" means the *Shisha* who is able to manifest *Kibō no Michi*.

It is because we live in an age that allows *Kibō no Michi* to manifest, *Kami* has revealed life's principles that grant us the ability to live a way of life that is one with our *unmei*. Hence when the teachings become a part of us, we achieve *kaiun* without fail. We live in truly inspiring times.

A family, where the *kokoro* finds peace and comfort, is essential to hone your *unmei* and achieve *kaiun*. This is because when the *kokoro* anchors, your *jittai* can be corrected and the strengths of your *unmei* can be drawn out. Hence the importance for family members to learn the *Shinji* and to create a family that interacts correctly based on the teachings.

The conviction and effort to do this strengthen and deepen the *Kokoro no Michi* of your family; and illnesses and disasters are avoided.

Behind all of this, lies the power of *Shinkikonshō*. If we *kigan* correctly, our *kokoro* is purified and our thoughts are communicated to *Shinkon* without fail. We are able to live a way of life guided by our *unmei* and we become someone that the people around us look to as an example. We're able to promote and guide our environment to harmony.
