

July 23, 2023 *Shinja Kokoro no Moto Benkyōkai* about the Family

Shinji

Kami has given each person an unmei in sync with the jittai that continues to live through their Kokoro no Michi.

The soul that is given by Kami becomes the strengths of an unmei that guides and protects the life of each person.

What is desired is for shinja to know the truths (the conditions) about life and to gain an awareness to live by the teachings with their family members.

What Kami sees is human beings who live and rely on knowledge, experience, and endeavor as absolute and lack the awareness to elevate their jittai.

This is why they deepen their confusion, troubles, and suffering in life on their own.

The shinja must learn the Shinji, the principles, and create a family that interacts correctly based on the principles.

The more successful you are at this, the jittai of family members is corrected and the Kokoro no Michi grows stronger.

The jittai (the kokoro) of human beings is honed within a family that lives by the principles, and they become an existence (people) who walk the correct path.

The strengths of their unmei are increasingly drawn out and a life that is sustained by many encounters begins.

They are not troubled by their encounters with others, their life (their kokoro) is not twisted by greed; they always give back their unmei's strengths to society and leave behind good elements in their Kokoro no Michi.

Learn the teachings with your family members and realize that it is an era (the time) when the family hones its life and raises its environment.
