

July 29, 2023 *Kibō no Michi Benkyōkai*

Shinji

Gain awareness from the Shinji, the principles, and kigan repeatedly so that it becomes the wisdom that sustains your life.

The movement of the kokoro will anchor and doubt and uncertainty disappear.

For human beings who live through their unmei-jittai (their kokoro), the more the jittai is corrected through the principles, the strengths of the unmei are drawn out, and their life (their kokoro) will not be at the mercy of the changes in society.

This is the condition (the kokoro) of the human being (people) who manifests Kibō no Michi.

To the Shinja

Having learned the teachings, how is your effort to make the best of them in your life?

Unable to correct your jittai, you rely on knowledge and experience and your efforts do not bear fruit.

Effort confuses life (your kokoro) and causes suffering.

Have the strong kokoro to live by the teachings.

The teachings brighten and strengthen the kokoro of the shinja.

To elevate the jittai and draw out the strengths of the unmei, learn the teachings with family members.

The kokoro of family members will gradually come together as one and it will become a family (a home) that is protected and guided by the strengths of the unmei.

Understand that Kibō no Michi is the path that must be manifested to achieve a life without regrets.
