

October 1, 2023 *Shinja Kokoro no Michi Benkyōkai*  
The Truth That *Daishin* Hoped for and Desired

*Shinji*

Today humanity can know the truths, the principles through the *Shinji*.

*The principle of cause and effect lies in the flow of time.*

*Shisha Tomomarusai was the human being (the person) who taught humanity this truth.*

*Good intentions and deeds will always give rise to good results. This is a prophecy.*

*Therefore, all human beings who live their life sustained by the *Shinji*, the principles, will be saved by miracles.*

To the *Shinja*

*Born into your *Kokoro no Michi*, your life ends within an era.*

*This is the era (the time) to deepen your understanding about what life should be about through the *Shinji* and live by the principles.*

*Now is the time to learn the truths, the principles, desired by *Daishin Tomomarusai*.*

*Your *kokoro* will gradually anchor and the way you see society will change.*

To leave behind good elements, discern today's society through the principles.

*Learn the correct path from the life lived by *Shisha Tomomarusai* and make it the model of your life.*

*Society's truths—the right and wrong paths can be discerned and understood when you live by the *Shinji*, the principles.*

**Summary of the *Shinji***

With the passage of years since the time *Kami* descended, we now live in an inspiring time when everyone can learn, through the *Shinji*, how life works and how we should live to gain happiness. Although turmoil exists throughout the world, if we live a way of life taught by *Kami*, we will live a good life without fail.

Just as there is a cause and an effect for everything, the *jittai* (the cause) produces an effect (an outcome)—this is the natural way of things. *Tomomarusai Sensei*, the Messenger designated by *Kami*, was the first person who taught the world this truth revealed by *Kami*.

*Kami* has prophesized that if we live by the teachings given to us, we will build on the good elements in our *jittai* and a fulfilling future lies ahead of us without fail. We will live a life protected by the *unmei* given to us, and sickness, accidents, and disasters are avoided. We will continue to be saved by the miraculous—large and small.

Everyone is born into the *Kokoro no Michi* that continues from their parents and ancestors; and our lives are destined to end with the passage of time. And because life is finite, it is vital that we understand from the *Shinji* how it should be lived.

*Tomomarusai Sensei* is now the *Daishin* who continues to protect us, and what he single-mindedly persevered to teach was the principle of *Kami*, *Hotoke*, *Hito no Michi*. When we learn the *Shinji* and try to live by the teachings, the movement of our *kokoro* anchors. Our judgment about people, things, and situations is true; and we are able to make the best of our *unmei*'s strengths to be useful in society.

Therefore, let us live our life based on the teachings as we discern society's movements so that we may steadily leave behind good elements in our life. The way of life lived by *Tomomarusai Sensei*, who cherished the *kokoro* above all else, is the best model that we can follow.

Regardless of how society changes over time, if you have learned the *Shinji*, you will be able to accurately ascertain what is right and wrong in your life. You will know what the right choices are for you, what you must do, and what you must not get involved in or do.

Making the right decisions and choices is not about abiding by society's laws. It is a way of life that tries not to hurt the *kokoro* of other people. It is to live a way of life that gives joy to others. It is to live a way of life that abides by the path in sync with the movement of society.

What you will then begin to discern is the path of salvation lived by *Tomomarusai Sensei*. As *Daishin*, his singular hope for the happiness of each of us continues to this day.
