

*Shinji*

*There is only one truth to making the best of a finite life and that is to manifest Kibō no Michi throughout your life.*

*Shinji Kyōkai has only one mission—it is to reveal to society (the world) the key to manifesting Kibō no Michi throughout your life.*

*Human beings who live through their unmei-jittai (kokoro) is enveloped in Kami's unmei, Shinkon, and live their finite lives.*

*The human being (people) who is aware of these three truths will always seek out Kami.*

*Hence, they are able to strive and live by the Shinji, the principles.*

*This is when they begin to gradually manifest Kibō no Michi and live a life that is one with their unmei.*

*Kami's protection is great; and a life that makes the best of all encounters is lived.*

*To the Shinja*

*Have you learned the teachings, gained awareness and deepened your understanding?*

*Life cannot be lived through knowledge and experience.*

*When you experience this truth, all human beings seek salvation from the principles.*

*When you personally experience Shinkon (Kami), your jittai will be corrected.*

*Human beings live through their unmei-jittai (their kokoro) and when they gain understanding from the teachings, they are able to live a life that is one with their unmei.*

*This is the human being (the person) who naturally manifests Kibō no Michi and makes the best of their finite life.*
