**Summary of the Shinji**

Humanity now knows about *Kibō no Michi*—the ultimate means of salvation from their hitherto inescapable life path or fate. We must be unwavering in our understanding of the significance of *Chokushi's* existence, who opened the path of salvation to the world.

If we live and abide by the path, we are able to fully make use of the strengths that we have been given, and thereby live out a life without regrets. *Kibō no Michi* (the light) is the precious means to achieving this. To manifest this light, *Kami* descended through *Tomomaru-hime Sensei*, who was the physical manifestation of *Shinkon*, the spirit of *Kami*.

Following the indescribable trials and tribulations of her life, *Tomomaru-hime Sensei* manifested *Kibō no Michi* and made it accessible to all. Today, she is in her true form as *Shinkon*; and a Direct Messenger (*Chokushi*) will never again be born on earth. Many years have passed since *Chokushi's* birth that was the descent of *Kami* and when we look back at the footprint of *Shinji Kyōkai*, we are able to understand deeply the significance of “*Seibi*,” November 15, the day when *Kibō no Michi* was made accessible to us through *Chokushi's unmei*.

We now live in the age of *Shinkon* where *Kibō no Michi* can be manifested by all. This means that the movement of our *kokoro* is protected, and we live in a time when our happiness is shared with our family members. It means that the *Kokoro no Michi* of our family is succeeded by our descendants without fail.

It has been 77 years since *Kami* descended and *Shinji Kyōkai* has made *Kibō no Michi* available to not only *shinja*, but to the world at large. *Kibō no Michi* is not the exclusive privilege of the *shinja* alone, but it can be manifested by all of humanity. We alone, who have experienced salvation through *Kibō no Michi*, are able to convey its worth to our friends, colleagues, and the world at large with certainty and confidence.

The movement of the *kokoro* of each person, who has learned the teachings through the *Shinji* and manifests *Kibō no Michi*, is protected by *Shinkon* and they have undoubtedly fully experienced the joys of life. The greatest happiness is to live with an anchored *kokoro*, to make the right judgment calls, to be recognized and accepted for who we are by many people, and to live in harmony on the correct path.

The principles that humanity seeks today can all be found at *Shinji Kyōkai*. Protected by *Shinkon*, when we manifest *Kibō no Michi*, we attain *Shinjitsu no Michi* and we progress to *kaiun*. Now that we know this, it is the time to spread the word and let society know about *Kibō no Michi*.
