

*Shinji*

*Many people are lost and are suffering unable to find the support they need because they rely on knowledge without principles.*

*The beliefs and principles of people become meaningful in society when they are based on the principles.*

*But thoughts and ideas without principles confuse the kokoro; and society suffers.*

*To the Shinja*

*Learn the teachings with your family and strive to build a family that is based on the principles— together with your family members.*

*The kokoro of the family will gradually come together and love and consideration for your family members will grow; love that is the truth begins to blossom.*

*Love that is the truth will draw out your feelings to live by the principles; and the Shinji, the principles, will sustain your life (your kokoro).*

*This is when Kibō no Michi manifests in the kokoro of human beings.*

*Why does Kami reveal the principles to society (the world) through Shisha?*

*The path is revealed so that humanity harmonizes and human beings, who are guided by their unmei, are fostered.*

*Shinja, who gains aware through the teachings and deepens their understanding, will manifest Kibō no Michi.*

*Human beings, who live by the principles, are protected, guided, and saved through their unmei in the hands of Kami.*
